**Occupational Therapy** is an allied health profession that tries to help you bridge the gap between what you can do and what you want to be able to do. They can help with equipment, home modifications, skills training or developing adaptive techniques.

**Overnight support (awake shift)\*** Hourly rates apply.

**After hours callout fee** will be charged for calls from clients to rearrange/request services. This fee is charged on top of the applicable hourly rate of services provided and is used to cover the administration costs associated with arranging the visit / change outside of normal business hours.
